About us

Born out of a passion for precision and quality

For almost 30 years, we have been operating in the manufacturing industry, while our roots can be traced back to the automotive sector, where we gained experience in the design and manufacture of specialised vehicle interiors (including campervans). It was back then that we learned how to create functional, aesthetically-pleasing and sustainable solutions, making maximum use of the available space. Working in the demanding automotive environment also taught us about process optimisation, efficient work organisation and accurate planning - and today we translate these skills into better customer care, streamlined execution and even higher quality of products and services.

We bring our expertise and precise craftsmanship into commercial interiors, offering bespoke built-in furniture for private and business customers.

We have our own modern production facilities and extensive machinery resources, allowing us to keep full control over the entire process - from design through production to final assembly - and to ensure the highest quality of workmanship.

Our production meets environmental responsibility standards we are FSC® certified, which confirms that the wood we use comes from legal, sustainable sources.

We create furniture that not only looks good but, above all, is comfortable, durable and perfectly suited to the space and the customer's individual needs.

Stable company Consistent development

Carpol Wood

Market segments

General Contractors

We support construction companies in the comprehensive implementation of large-scale investment projects, supplying durable and functional furniture – both for permanent facilities and for events.

Business Equipment

We supply furniture and built-in structures for companies to support the ergonomics, aesthetics and functionality of the workspace.

Individual Customers

We fulfill orders for private customers, combining aesthetics, comfort and durability in bespoke furniture.

Specialised Vehicle Interiors

We design and manufacture furniture systems for vehicle interiors, ensuring comfort and safety of use.

Architectural Studios & Design Offices

We create solutions in line with the designers' vision, offering flexible furniture production tailored to individual concepts.

Original Product Lines

We offer our own furniture collections that combine modern design with top-quality workmanship.

What we offer?

Example solutions

Stands and shop furniture

We have established partnerships with companies such as Rituals, Lancome, Lamy and Armani. Our priority is to deliver projects that take into account all needs of our customers while coordinating any new emerging concepts.

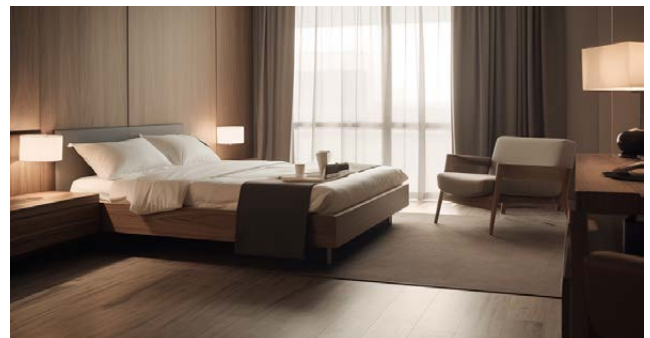

Car showrooms

We supply comprehensive furniture solutions for car showrooms. We have equipped the majority of OMODA & JAECCO showrooms in Poland. We have also completed projects for other renowned brands. We design sales spaces that are modern, functional and consistent with the brand identity.

Office furniture

We have carried out large office furnishing projects, which included wooden furniture, metal components as well as upholstered sofas, chairs and pouffes.

Hotel furniture

The manufacture of hotel furniture requires a focus on functionality, durability and attention to every detail. Timely delivery is our highest priority.

Reception spaces

We design elegant furniture for reception areas, using materials of the highest quality. We only work with trusted suppliers who share our standards.

Public & private institutions

We opt for durable solutions that will work well for many years to come. We have equipped, among others, the Wola Hospital in Warsaw and the Western Hospital in Grodzisk Mazowiecki.

Open space layouts

We have created open space layouts for hotels and offices. Starting with the design, through coordinating the procurement of all components (joinery, decorative elements, metal components, upholstery, greenery), to the final acceptance of finished space.

Individual projects

We also carry out individual orders - designing furniture tailored to the specific needs of private customers. Within our cooperation with designers, we furnish turnkey houses and flats, ensuring high functionality, aesthetics and top quality of workmanship.

Confirmed quality

FSC® Certificate no. C187235

FSC® Certificate no. SGSCH-COC-070610 (FSC-C18723) confirms our commitment to responsible management of wood raw material. It means that wood used in production of our furniture comes from sources managed according to the FSC standards, supporting sustainable forest-management. The FSC® Certification is also expression of care about the environment as well as responsible approach towards forest resources on each supply-chain stage.

Machinery resources

Professional facilities

Paint shops

- Wet paint technique for wood
- Powder coating technology, which requires oven curing for metal components.

CNC machining centre

We have a state-of-the-art CNC machining centre, allowing us to ensure precise and repeatable production of the highest quality furniture.

5-axis and 3-axis CNC plotters

Our production is optimised. All elements are cut out on CNC plotters. We have 8 of them.

Welding plant

We weld metal components, which allows us to provide all-round service to our customers.

Upholstery plant

We also fulfil individual orders. We create turnkey homes in collaboration with designers.

Thermoforming plant

Ability to form any shape in the thermoforming process up to a maximum height of 1 metre. Possible materials to use include ABS, PMMA and Polycarbonate.

Our projects

Extensive portfolio

Hallway furnishings, made of chipboard panels with added slatted panels.

Kitchen furniture, made of stained veneered panels. Kitchen island with white lacquered fronts, finished with a marble composite surface.

Chest of drawers, made of veneer, lacquered, with recessed handles.

Kitchen cabinets, units made of furniture panels. Fronts made of lacquered MDF.

Kitchen cabinets, units made of furniture panels. Fronts made of lacquered MDF.

Dining tables, made of melamine-faced board on a steel frame.

Room divider with planters, composed of flame-retardant melamine-faced board.

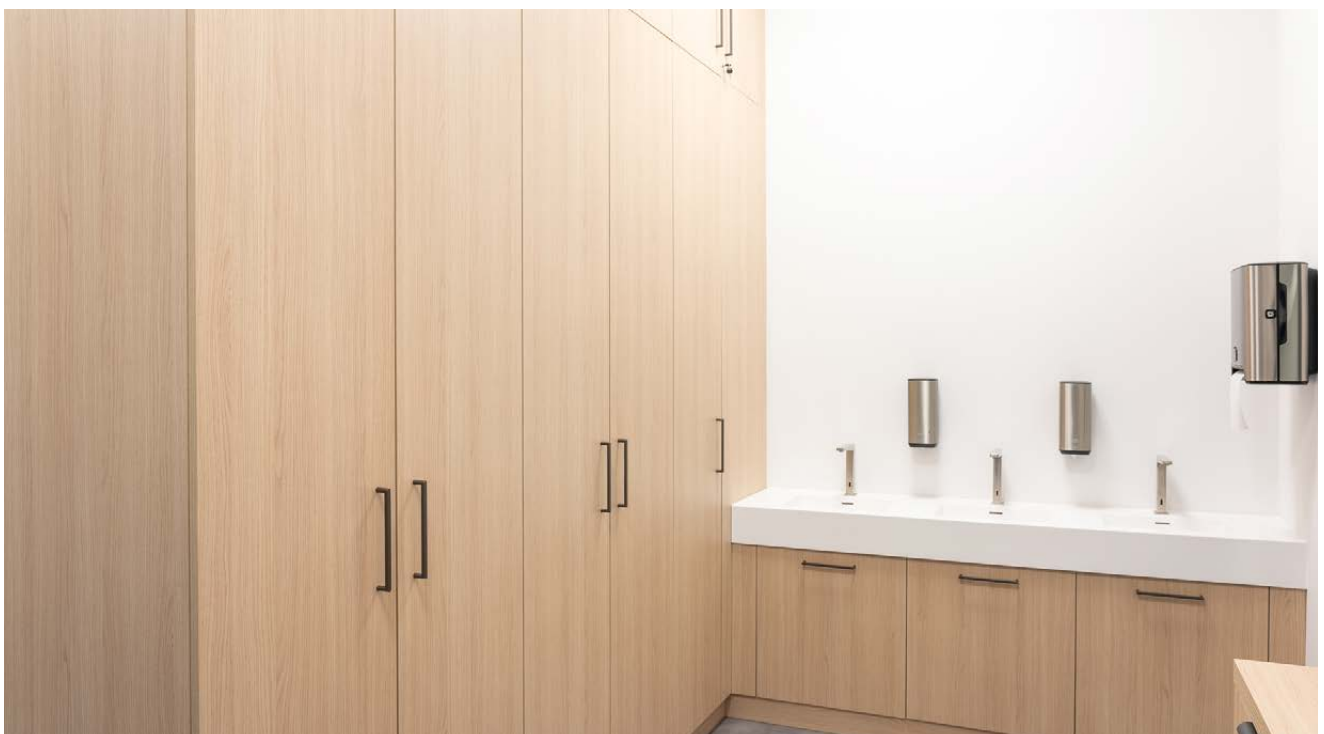

Kitchen cabinets, formed of melamine-faced board.

Bathroom cabinets, made of melamine-faced board with increased moisture resistance.

Shop furnishings, made of laminated board with glass display cabinets.

Shop furnishings, circular stand made of bent plywood built into a metal structure. Visual elements with LED backlighting. White top made from Corian. All varnished with semi-gloss lacquer. Stand made of lacquered MDF combined with a metal structure. Illuminated logo. Black logo made of black glass, also illuminated.

Desk, drawers with silent closure, powder-coated metal bookcase, warm lighting, ideal space to work.

Toilet unit, open shelf, LED lighting, black veneered fronts.

Desk, HPL countertop, and storage unit,
constructed of lacquered MDF.

Furniture – relaxation area,
built from lacquered MDF, stone
vener, and carbon fiber foil.

Jak działamy?

Współpraca krok po kroku

STEP 1

First contact

We start with a phone call or e-mail to find out initial expectations and agree on next steps.

01

02

STEP 2

Meeting with the customer

We organise a meeting at our premises combined with a tour of the plant and a presentation of our production capabilities. Alternatively, we offer online meetings.

03

STEP 3

Needs analysis

We discuss the customer's requirements in detail in order to be able to best tailor our solutions and prepare the optimal proposal.

04

STEP 4

Preparation of our proposal

Based on the information gathered, we develop an offer with specific solutions and a project schedule.

05

STEP 5

Project implementation

We proceed with production and assembly, ensuring timeliness, quality and compliance with all arrangements made.

06

STEP 6

After-sales service

We provide post-completion support, offering advice and technical service as part of a long-term partnership.

About Us

Carpol Wood Team

Meet the people responsible for the strategy, development, and daily operations in our company. It is thanks to their experience and commitment that we achieve our mission.
